

G Suite for Education

Date: September 2020

Hello all

- The school has a Digital School Team (Tim, Michael, George, Barry, Denise, Feargal & Anne-Marie) whose aim is to provide the students with 21st Century Digital Citizenship Skills. The team has agreed upon the following goals to help achieve this.
- The goal for **3rd/4th** classes is to create a book using the Book Creator app on the iPads. This is then saved to the children's personal G Drive account. These books can also be printed for display boards/library.
- The goal for **5th/6th** classes is to create a project using Google Slides. Some 5th/6th classes are additionally using the Book Creator app as the children really like using it.
- The cameras are turned off on the iPads. If you need the camera to be turned on for the Book Creator app or Google Slides then just pop a note to Tim or myself (George).

Note: It will not matter which iPad a child is using each time as all their content will be saved and accessed from the cloud. Which is kinda fresh.

Thanks

The Digital School Team
